Updated: 4/2/2009

Descriptions of the different accounts available in connection with the Redbird ID Card:

Meal Plan Account: *A Meal Plan is obtained through University Housing Services meal contract, used in residence hall dining facilities only.*

Flex Account: *A portion of the University Housing Services meal contract available to buy food items at locations outside of the residence hall dining facilities. Residence Hall Dining locations accept this account after the Meal Plan is used up or to purchase guest meals.*

Debit Account: *Money (cash or check) must first be deposited into the account with the Redbird Card Office, Student Accounts, or 3D machines on campus. Credit cards (Master Card, American Express, and Discover) are accepted on the web at www.icampus.ilstu.edu. Money in the Debit Account may be used at any location which accepts the Redbird Card. This is the only account with which you may purchase "non-food" items or services. This account is available to all students, faculty/staff, retirees, and U-High students.*

**Locations have readers which your Redbird Card is "swiped" through to access your accounts via the computer system. Each reader is set up to "look" into one account at a time, in a certain order. If no money is found in the first account, the next account is accessed. The balance shown after your transaction is processed, corresponds to the account from which money was deducted.
